Next, I would like to get your opinion on the risks of smoking and using nicotine medications. I will read you two statements and then ask you which one of the statements you feel is nearest to the truth. I will do this for six different topics.

G23. The first two statements have to do with how smoking might damage someone's health. In your opinion, which of the following statements is nearest to the truth?

- 1 You have to smoke for 10 or more years to do any real damage to your health... OR
- 2 Each and every cigarette you smoke damages your body.
- 8 DON'T KNOW
- 9 REFUSED

G24. The next two statements have to do with high and low tar cigarettes. In your opinion, which of the following statements is nearest to the truth?

- 1 Your chances of becoming ill from smoking are greater if you smoke a full-flavored, high-tar cigarette brand. OR
- 2 Your chances of becoming ill from smoking are not changed much by smoking a light, low-tar cigarette brand.
- 8 DON'T KNOW
- 9 REFUSED

G25. The next two statements have to do with quitting smoking. In your opinion, which of the following statements is nearest to the truth?

- 1 It is easier to quit smoking if you switch to a cigarette brand that is lower in nicotine... OR
- 2 Switching to a low nicotine cigarette brand does not improve your chances of quitting smoking.

- 8 DON'T KNOW
- 9 REFUSED

G26. The next two statements have to do with nicotine. In your opinion, which of the following statements is nearest to the truth?

- 1 Nicotine does not cause cancer... OR
- 2 The nicotine in cigarettes is the chemical that causes most of the cancer in smokers.
- 8 DON'T KNOW
- 9 REFUSED

G27. The next two statements have to do with the nicotine patch. In your opinion, which of the following statements is nearest to the truth?

- 1 It makes no difference one way or the other if someone uses a nicotine patch to quit; it just comes down to how badly the person wants to stop smoking... OR
- 2 All other things equal, using the nicotine patch increases a person's chances of quitting successfully.
- 8 DON'T KNOW
- 9 REFUSED

G28. The last two statements have to do with making a less dangerous cigarette. In your opinion, which of the following statements is nearest to the truth?

- 1 If there were a less dangerous cigarette, I would still try to quit rather than switch to the less dangerous cigarette OR
- 2 If there were a less dangerous cigarette, I would switch to that rather than try to quit
- 8 DON'T KNOW
- 9 REFUSED

Please tell me if you strongly agree, agree, disagree, or strongly disagree with the following statement.

G29. If cigarette companies made a cigarette that was less dangerous than current ones, should the government require that only the less dangerous cigarettes be sold?
